This program assists with puzzling areas of the industry and insurance contracts.

Have you ever wondered if the coverages are adequate?

Have your clients complained about the industry markets and coverages not being available or not standard?

With an in-depth analysis of the insurance contracts and the endorsements to cover the coverage gaps, you may avoid an Errors and Omission claim.

## DISASTER RECOVERY PLANNING – INSURANCE BY ANOTHER NAME

**DEAN MAJOUÉ  
STRATEGIC BUSINESS SOLUTIONS,  
INC.**

Planning your business to recover after a disaster is far easier than recovering from a disaster without a plan. Unfortunately, many businesses found out what this is like without the benefit of an up-to-date and tested plan in place. This session will explore the various categories of a disaster and how each should have the steps for recovery planned out long before any disaster event.
